Moores Rowland Consulting to distribute Tango/04 Solutions in India

- Tango/04 IT Security, Operations Monitoring, Compliance and Business Service Management solutions, readily available for Indian companies.
- Moores Rowland Consulting Pvt. Ltd. (MRCPL), a Haribhakti Group company and a leading IT consultancy, will distribute and implement them.

BARCELONA, Spain, February 15, 2007. – [Tango/04](#) award-winning software solutions for IT Monitoring, Business Service Management (BSM), IT Security, Compliance and Data Auditing, will be distributed and implemented in India by Mumbai-based Moores Rowland Consulting Pvt. Ltd. (MRCPL), a [Haribhakti Group](#) company.

The Haribhakti Group is a leading accounting and consulting organization covering a wide array of Audit, Financial Advisory and IT Management services. As part of the Haribhakti Group, Moores Rowland Consulting Pvt. Ltd. provides Information Technology consulting and Information Systems Risk Management services, assisting clients to obtain optimum value from their investments in IT.

Moores Rowland Consulting Pvt. Ltd. will take advantage of Tango/04 technology to implement Data Auditing, Business Service Management, Security and IT Monitoring solutions specifically targeted at their customers in India, including Business Houses, Regulators, State & Union Ministries, Government and Financial Institutions.

Tango/04 Computing Group, with headquarters in Barcelona, Spain, and branch offices in seven countries, including the U.S., develops real-time systems management and security software that offers top-down visibility into critical business processes, prioritizing the impact of any IT problem. Tango/04 solutions allow CIOs to easily optimize operations, applications, systems and processes, monitor user experience and prevent errors before they harm the business.

“India is one of the biggest IT markets in the world and is expanding very rapidly. Indian companies need reliable and simple-to-deploy solutions to monitor their business processes and to comply with international best practices and security regulations,” said Jenko Gaviglia, International Sales Director at Tango/04 Computing Group. “We are very pleased to have Moores Rowland Consulting Pvt. Ltd. as our Business Partner in India. With their experience, knowledge and commitment to quality we are sure to offer the best integrated solutions and services.”

According to Mr. Shailesh V. Haribhakti, CEO & Managing Partner, Haribhakti Group, "our partnership with Tango/04 will enable us to offer end-to-end Information Security and Operations Monitoring solutions to our clients in India. We are delighted to enter the 'Real-Time Monitoring Space' to assist businesses in effectively managing their IT infrastructure and their corporate data security exposure. The India IT & ITES Industry is growing at about 40% per annum and we are confident of achieving higher growth rates through this strategic tie up."

Both companies signed a Business Partner agreement last December, enabling Moores Rowland Consulting Pvt. Ltd. to offer Tango/04 solutions in India and the Middle East, and its consultants to receive training and technical support from Tango/04 specialists. Customers who acquire Tango/04 based solutions will benefit from Moores Rowland Consulting Pvt. Ltd.'s access to the knowledge collected by Tango/04 from best practices worldwide in the past fifteen years.

"Based on our experience in Information Security Consulting we believe that speed of response on detecting security exposures will be the decisive factor in effectively managing the information risk. Tango/04's real-time Security and Business Operations Monitoring solutions provide a perfect key for managing the monitoring process effectively in organizations, thereby giving them an opportunity to minimize costs and reputation exposures," said Huzeifa I. Unwala, Executive Director, Moores Rowland Consulting Pvt. Ltd. "The Indian Information Security market has evolved in the last few years, wherein organizations have invested heavily in IT Security devices such as intrusion detection/prevention systems (IDS/IPS), firewalls, biometric solutions etc., and now they need real-time monitoring solutions that can consolidate all these heterogeneous controls effectively."

Moores Rowland Consulting Pvt. Ltd. will offer its customers the complete family of Tango/04 solutions, including VISUAL Security Suite and VISUAL Message Center.

[VISUAL Message Center](#), Tango/04's Infrastructure & Operations Monitoring solution, helps companies obtain maximum output from their IT infrastructure by simplifying the management of their critical technical components and business processes across distributed systems. Businesses benefit from increased datacenter productivity, maximum availability, optimal performance and a more cost-efficient management of their IT infrastructure.

Tango/04's [VISUAL Security Suite](#) and [Tango/04 Data Monitor](#) protect sensitive corporate data, consolidating the management of IT security across different platforms and helping to comply with security best practices and audit-related regulations, including SOX, HIPAA, SB 1386, FDA's 21 CFR Part 11, the Basel II Accord and European privacy laws.

About Moores Rowland Consulting Pvt. Ltd. (MRCPL)
