## Tango/04 Solutions are i5/OS V5R4 Ready

- Tango/04 releases new versions of all its iSeries software products with full i5/OS V5R4 compatibility
- New releases take advantage of the performance, security and system management improvements of V5R4

PETERBOROUGH, NH, April 24 2006. – Tango/04 Computing Group, Inc., a leading developer of software solutions for Business Service Management (BSM), IT Security, Compliance and Operations Monitoring, today announced the immediate availability of new releases of all of its products with full support of IBM's new i5/OS V5R4 operating system.

IT departments already using or planning to use i5/OS V5R4 in their production environments can easily upgrade their versions of Tango/04 software products to take advantage of the performance and security improvements of IBM's new release of its midrange operating system.

- [VISUAL Message Center](#), Tango/04's award-winning, multiplatform Operations Monitoring and Business Service Management software solution. V5R4-enabled modules include iSeries Server Agent, iSeries Interactive Agent, iSeries Security Agent, iSeries SQL Monitors, iSeries Support Agent, and iSeries Performance Agent (powered by [VISUAL Control for Windows](#)).
- [VISUAL Security Suite](#), Tango/04's security and auditing solution, including the iSeries Security Agent, iSeries SQL Monitors and Tango/04 Data Monitor for iSeries modules.
- [Tango/04 Data Monitor for iSeries](#), a record-level database auditing solution that helps companies comply with the Sarbanes-Oxley Act (SOX), HIPAA, 21 CFR Part 11 and other regulations by capturing read, insert, update and delete transactions performed on DB2 for iSeries databases.
- [VISUAL Control Center](#), a solution to accelerate and control iSeries systems, achieving better response times, guaranteeing predictable service levels and automating system management tasks, including intra and inter LPAR performance.

*“We are not talking about mere compatibility,” said Raul Cristian Aguirre, President and CEO of Tango/04 Computing Group. “We have seized this opportunity to improve the performance and usability of our solutions by taking advantage of the new features available in V5R4, including improvements in the database engine, networking enhancements and general performance and security improvements. We have a strong commitment to the System i and we intend to lead the corporate monitoring arena with continuous investment and innovation.”*

Tango/04 has a wide range of products that have been optimized and thoroughly tested to support i5/OS V5R4. Find more information on them at [www.tango04.com](http://www.tango04.com) or address your inquiries to [sales@tango04.net](mailto:sales@tango04.net).

Tango/04's software solutions have obtained the IBM ServerProven™ certification. Founded in 1991, Tango/04 is a member of the IBM Autonomic Computing initiative.
